VENOTRAIN MEDICAL COMPRESSION STOCKINGS: ALWAYS THE RIGHT CHOICE

Whether as a preventive measure, for standard phlebological cases, for advanced vein problems or even for the treatment of venous leg ulcers and lymphedema:

VenoTrain medical compression stockings cover all uses/indications associated with modern compression therapy and are also offer clinically proven effectiveness, unique material properties and a patient-oriented modern design.

The indication-driven treatments cover a wide range of round-knit and flat-knit styles in both custom-made and standard versions. The Perfect-Fit sizing system developed by Bauerfeind on the basis of digital leg measurements offers unique flexibility in ensuring that medical compression stockings from the standard product range fit perfectly.

All VenoTrain products satisfy the requirements of the German Medical Devices Act (Medizinproduktegesetz – MPG) and bear the RAL quality mark. The Oeko-Tex Standard 100 is a quality mark that guarantees particularly high levels of skin tolerance.

Colors may differ due to printing.
Please refer to the current price list for further styles.

MEASUREMENT TECHNOLOGY: GUARANTEES OPTIMAL CARE FOR YOUR CUSTOMERS

BODYTRONIC® 200

Leg health can now be measured quickly and easily thanks to the BODYTRONIC 200, the compact and portable system for measuring vein function.

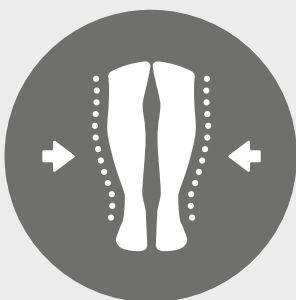

With wireless transfer to a PC via Bluetooth, the measurement data can be used to devise preventive measures or obtain additional information for proposed medical treatments.

BODYTRONIC® 600

Individual measurements for medical compression stockings need to be highly precise if the proposed treatment is to be effective (quality and test specifications RAL-GZ 387:2008).

The BODYTRONIC 600 measurement system gives you the security of reliable 3D circumference values and a guaranteed fit and can even link up directly with Bauerfeind's online ordering system.

PERFECT-FIT SIZING SYSTEM

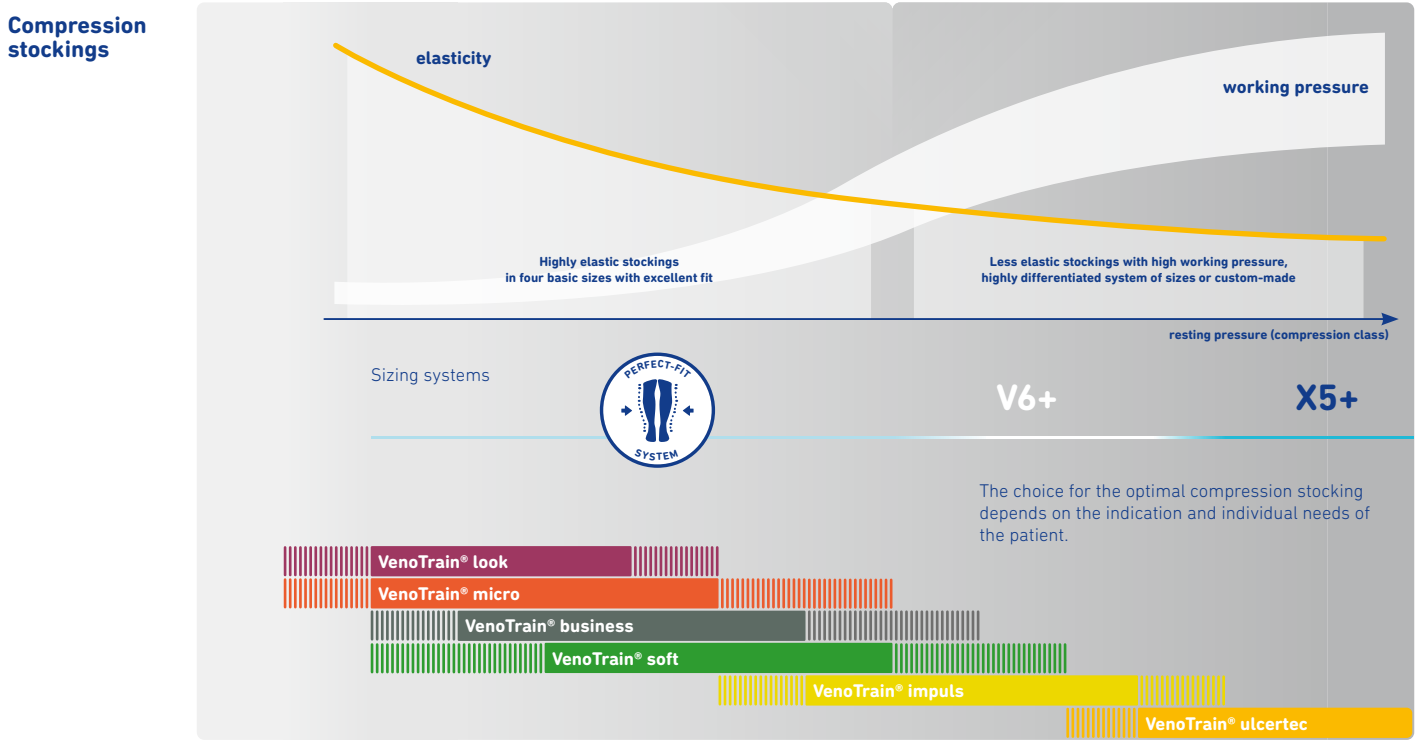

More than 500.000 legs have already been measured using Bauerfeind's measurement technology. These measurements form the basis for the Perfect-Fit system, which can help provide considerably more of your customers with compression stockings in standard sizes.

This reduces delivery times, simplifies logistics and lowers costs while ensuring items fit as well as possible – all of which benefits everybody.

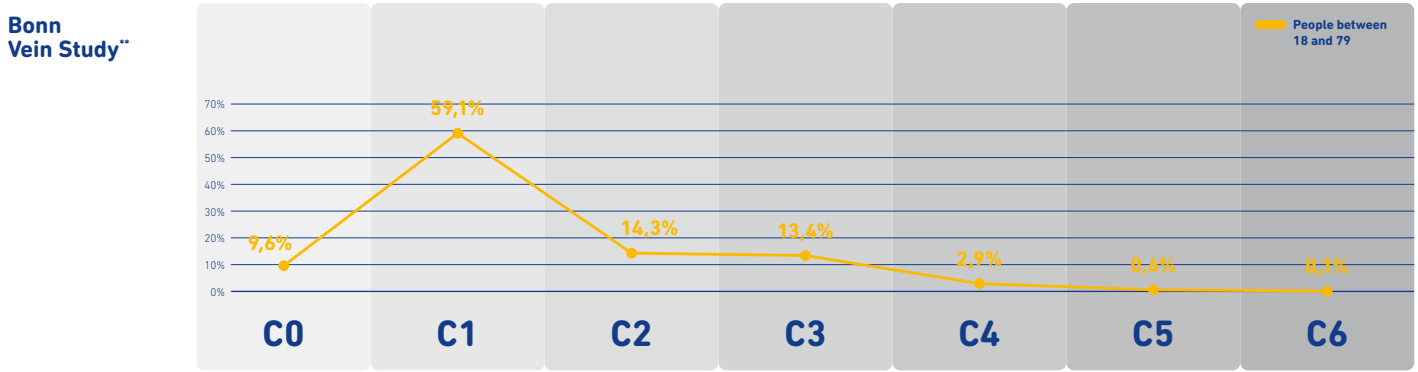

SYSTEMATIC APPROACH TO COMPRESSION

Diagnostic findings	No visible signs of a venous disorder	Spider veins Reticular varices	Varicosis Imminent functional insufficiency	Varicosis with edema Functional insufficiency	Varicosis with trophic skin changes Atrophy blanche, dermatoliposclerosis	Healed ulcerus cruris venosum	Active ulcerus cruris venosum

VenoTrain® micro

QUALITIES

With a particularly high microfiber content that makes it comfortable to wear, the VenoTrain micro is one of the most popular compression stockings.

Available in many designs and a wide selection of colors, it highlights the individual style of your customers.

Our individually colored batik versions in marine or black are particular eye-catchers.

- **50 % microfibers: breathable, kind to the skin and easy to clean**
- **figure-enhancing panty area (pantyhose) and comfort sole**
- **opaque full-fashioned stocking quality**
- **also available as a Design Edition with the patterns "Tango" and "Jive"**

VenoTrain® business

QUALITIES

While traveling or at work: Timelessly elegant with a discreet ribbed appearance, the VenoTrain business meets every requirement for a high-quality knee-high stocking.

The combination of cotton and Timbrelle® high-tech fiber offers top-class wearing comfort with temperature regulation. Highly elastic LYCRA® and the extra-wide supportive band ensure that the stocking is easy to put on and stays perfectly in place.

The new comfort heel, a reinforced sole, and high-tech fibers provide long-lasting freshness and healthy foot conditions.

- **innovative mix of materials**
- **high-quality men's stocking with a classically discreet ribbed structure**
- **reinforced sole**
- **Timbrelle® high-tech fiber for long-lasting freshness around the foot**

VenoTrain® soft S

QUALITIES

It caters for the special requirements of people who spend prolonged periods of time sitting down, and features a generous heel area and comfortable instep region.

The stocking stimulates circulation using gentle massage action with every movement. The robust knitted fabric can withstand plenty of wear, and can also be easily put on by care staff.

- **wide heel area**
- **adapted to the typical anatomical foot posture while sitting (90 degree angle)**
- **particularly gentle on the skin**

VenoTrain® ulcertec

QUALITIES

The combination of an overstocking with a patented rhomboid knit and a skin-friendly liner for fixing the wound dressing in place makes the item easy to put on without any help from others.

The liners are also designed to provide a continuous low level of compression during the night, which can be individually ordered as a set of three and are suitable for washing at high temperatures.

- **easy to put on**
- **constant pressure**
- **discreet appearance**
- **X5+ sizing system**

VenoTrain ulcertec, 39 – moderate

- compression strength 34–46 mmHg
- Liner with gentle compression
- venous ulcer of the leg with good tendency to heal
- light liner for patients who can only tolerate a little compression at night

VenoTrain ulcertec, 46 – strong

- compression strength 34–46 mmHg
- Liner with moderate compression
- stagnating ulcers with a poor tendency to heal
- Liner with moderate compression providing wearing tolerance and a good acceptance level of compression at night

VenoTrain® soft Arm

QUALITIES

Seamless with an extra soft inner elbow area. This facilitates everyday mobility combined with complete medical efficacy.

- **Comfort crook of the elbow for greater freedom of movement, wearing comfort and a reduced pressure sensation**
- **noticeable effect throughout the entire wearing period**
- **gentle on the skin, soft and breathable**

VenoTrain® act

QUALITIES

These high quality support stockings provide comfortable stimulation. They offer gentle support for feelings of heaviness and swelling in your legs, preventing circulatory disorders. They ensure that legs stay fit for longer when sitting or standing for prolonged periods, and when traveling. VenoTrain act is available in the versions "sheer elegance", "cotton" and "microfiber", combined with modern materials, and in attractive colors – for him and for her.

VenoTrain® Accessories

THE PERFECT ADDITION FOR ALL VENOTRAIN PRODUCTS

The handy extras from the VenoTrain accessories range are useful for ensuring that patients feel comfortable using and wearing their VenoTrain compression stockings. They provide effective support for treatment and are easy to handle and care for the compression stockings as well as your customers' skin.

VenoTrain® glider

A PRACTICAL AID

VenoTrain glider is the practical aid for putting on and taking off your medical compression stockings.

The lightweight, hard-wearing material makes the stocking glide effortlessly over your arm or leg. It is suitable for compression stockings with open or closed toe.

Saving space and time, it is the ideal companion when you're out and about.

- extremely lightweight, robust, and tear-resistant
- easy to handle
- also ideal for travel

VenoTrain® glider plus

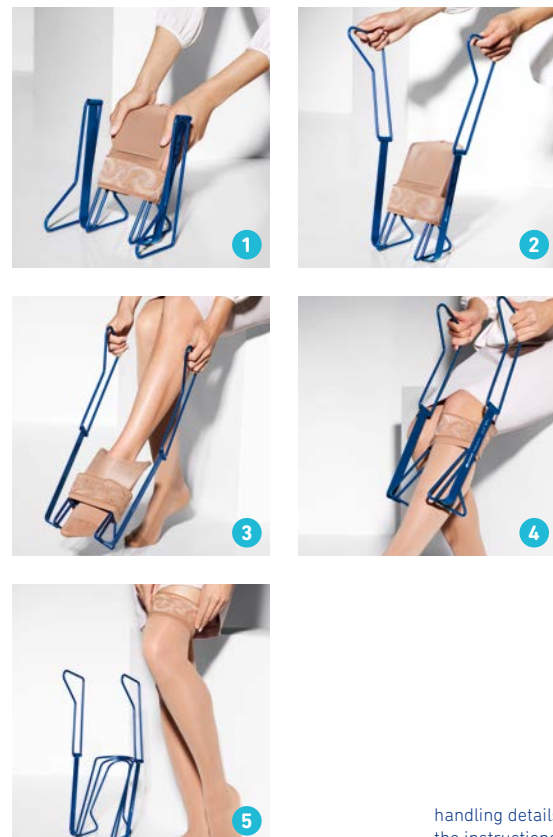

A ROBUST AID

VenoTrain glider plus is a robust donning aid for all types of medical compression stockings.

It has been tested by an independent institute for ease of use, even for customers with restricted mobility.

VenoTrain glider plus features a particularly compact design.

- compact, ergonomic design
- light metal frame with folding handles
- easy to handle without the need for any great effort

handling details provided in the instructions for use

Rubber gloves

help with the correct donning of the compression stockings

Special detergent*

ensures careful cleaning and provides lasting protection for your products

Lingerie bag

to protect your compression stockings during machine wash

VenoTrain® lotion*

developed in collaboration with Sebapharma; contains chamomile extract and is specially designed for people with sensitive skin

Care foam*

contains panthenol to protect and soothe particularly stressed and sensitive skin

Starter kit

including gloves, a foot file, lingerie bag, non-skid soles, an exercise band, and loyalty card

* only available in selected countries

PRODUCTS AND HEALTH CARE CONCEPTS: FOR BETTER QUALITY OF LIFE

As one of the world's leading manufacturers of medical products, Bauerfeind AG has, through its products and service concepts, been making a significant contribution toward maintaining and restoring health and increasing well-being for more than 85 years – for a better quality of life.

Our specialists work with physicians and scientists from all over the world and are fully aware of what is expected of them, in terms of both the tradition and reputation of a family-run business and the high performance levels demanded by today's healthcare market.

Numerous patents and international awards underline our company's flair for innovation and our outstanding expertise in technology and manufacturing. We intend to continue delivering quality "Made in Germany".

Supports and orthoses

Whether for prevention, treating symptoms or providing post-operative care, physicians and physiotherapists around the world trust our supports and orthoses, which are available in a wide range of styles for all relevant forms of treatment and set the standard for maximizing therapeutic success.

Insoles

In the orthopedic orthosis segment, we set the standard with traditional products and innovative foot orthoses concepts such as TRlactive and ErgoPad. Comfort and therapeutic shoes and pressure relief orthoses round off a comprehensive range for modern medical foot care.

Measurement technology

Medical products will only work if they fit perfectly. With this in mind, Bauerfeind has specifically developed digital measurement systems for medical retailers to improve treatment with medical compression stockings and to enable the manufacture of custom-made foot orthoses.
